Tutorial Part 2: Skeleton Website

Tutorial Part 3: Using Models

```
[16/Oct/2017 13:01:07] "GET /static/admin/fonts/Roboto-Light-webfont.woff HTTP/1
.1" 200 81348
[c^C(ve django) d-172-25-215-210:locallibrary Alex$ ls
          db.sqlite3 locallibrary/ manage.py
[(ve_django) d-172-25-215-210:locallibrary Alex$ subl catalog/models.py
(ve_django) d-172-25-215-210:locallibrary Alex$ python manage.py makemigrations
Migrations for 'catalog':
  catalog/migrations/0001_initial.py
    - Create model Author
    - Create model Book
    - Create model BookInstance
    - Create model Genre
    - Add field genre to book
(ve_django) d-172-25-215-210:locallibrary Alex$ python manage.py migrate
Operations to perform:
 Apply all migrations: admin, auth, catalog, contenttypes, sessions
Running migrations:
 Applying catalog.0001 initial... OK
(ve django) d-172-25-215-210:locallibrary Alex$
```

Tutorial Part 4: Django Admin Site

Tutorial Part 5: Creating a Homepage
